JANET RENO IS GRADUATION SPEAKER

United States Attorney General Janet Reno has confirmed that she will be this year's Law School graduation speaker.

NATIONAL DEATH PENALTY CONFERENCE HERE FRIDAY

Findings from the most ambitious, comprehensive study of death penalty jurors and trials ever undertaken in the United States will be presented at the National Conference on Juries and Death Penalty at the School of Law on Friday, February 24, from 8:30 a.m. to 5:00 p.m. in the Moot Court Room.

Among the speakers will be David Baldus, whose statistical study of 2400 capital cases formed the basis for the defendant's arguments in McCleskey v. Kemp. But the focus of the conference will be on the work of the Capital Jury Project, an ambitious study of jurors in actual capital cases in thirteen states. Researchers from criminal justice, law, political science, sociology, and psychology, including Professor Joe Hoffmann from the Law School, have conducted extensive interviews with thousands of jurors whose cases reached the capital sentencing stage. Hoffmann says the interviews have produced both structured responses which can be studied analytically and rich narrative accounts of the decision-making process of jurors and juries.

Capital Jury Project researchers and professors will be joined by attorneys who

work in death penalty cases as they present a series of papers explaining their work. A full schedule of the conference events, which are open to students, is attached to the Calendar section of today's newsletter (page 4).
